STANDARD FEATURES & OPTIONS

- Customizable bolt-hole configuration for fixture placement (if standard spacing does not fit the application)
- Calibration post for calibrating robot TCP in X, Y & Z axes plus pitch, yaw & roll of torch; covers all degrees of freedom
- Special size configurations are available upon request

Pricing shown is for the standard fixture table configuration. Custom bolt-hole patterns, special sizes, and additional options may be quoted separately. Freight and applicable taxes are not included unless otherwise specified.
